PRODUCT GUIDE

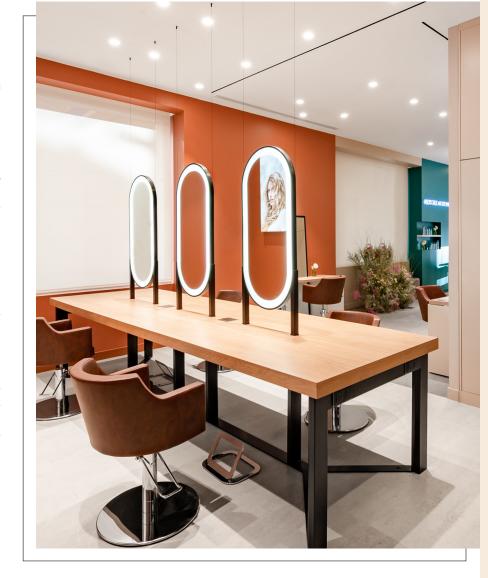

"Beautiful hair grows from a healthy scalp like a plant in fertile soil"
- René Furterer, Founder, Paris 1957

A STORY BORN OF NATURE

ROOTED IN SCALP SCIENCE

René Furterer combines the best of nature with pharmaceutical expertise for **innovative**, **safe and effective products**.

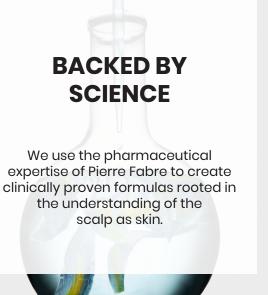

In 1957, Mr. René Furterer opened the first spa for hair in Paris, using what he had learned about natural ingredients and essential oils early in life. Many of his first clients had over-bleached, overprocessed hair as they sought the movie-star look of the time. He realized right away that healthy, radiant hair comes from within, from a healthy scalp. Every product and method developed since is based on these principles established by our founder long ago using the method he created called Etheirology. This original philosophy built around a healthy scalp and beautiful hair (etheirology, from the Greek etheira, hair and etheiro, to treat). He began practicing this approach by developing a three-phase "Prepare, Cleanse and Treat" method, which offers a custom treatment routine based on techniques carefully selected according to a very sophisticated preliminary diagnosis.

TRANSFORMATIVE RESULTS BASED ON WELLNESS FOR ALL

Everything we do is founded on our passion to deliver **lasting impact**.
